

# Environmental policy

**MND ;**

is an experienced factory specializing in the production of insulation products. Since its establishment, it has adopted the understanding of quality service and environmental protection to meet the different needs of our customers.

Our commitment is:

- To prevent the emergence of factors that may cause environmental pollution, to create a comprehensive environmental management system and to examine environmental problems in order to continuously improve our management system,
- To comply with all applicable legal and other requirements that the company has accepted regarding environmental aspects,
- To improve the environmental awareness of all our employees with environmental education and awareness activities, to ensure that they apply this in other areas of their lives,
- To reduce the negative environmental impacts arising from the production, supply and logistics activities of the company,
- To encourage closing the product life cycle through recycling and / or reuse in order to use natural resources effectively and minimize waste,
- To enable the public to better understand our company's environmental management and to establish good communication with customers and communities at local and international levels.

Our company is committed to the continuous improvement of environmental performance. Our environmental policy will be announced to all personnel, subcontractors and suppliers and will be shared in the technological environment in a way that is open to the public.
